MOHAMMAD ZIDAN

Data Analyst | Generative AI, Python, SQL, Power BI, Tableau & Excel

Kerala, India +91 8590925286 zidhann7@gmail.com GitHub LinkedIn Portfolio

PROFESSIONAL SUMMARY

Data Analyst with a Generative AI focus and hands-on experience across Python, SQL, Power BI, Tableau, and Excel, specializing in data cleaning, exploratory data analysis (EDA), and dashboard development. Analyzed 2M+ records across four internships, translating complex datasets into clear, actionable business insights for cross-functional stakeholders. Applies Generative AI tools (ChatGPT) and prompt engineering to accelerate data preparation, analysis, reporting, and insight generation, backed by strong data storytelling, statistical analysis, and stakeholder communication skills

CORE SKILLS

Languages & Querying: Python, SQL, DAX

Libraries: Pandas, NumPy, Matplotlib, Seaborn, scikit-learn

Visualization & BI Tools: Power BI, Tableau, Excel (Advanced), Excel VBA (Macros), Power Query

Analysis Techniques: EDA, Data Cleaning & Wrangling, Statistical & Hypothesis Testing, A/B Testing, Forecasting, ETL, Data Modeling, KPI Tracking, Predictive Modeling

Generative AI: ChatGPT, Prompt Engineering, AI-Assisted Data Analysis & EDA, AI-Assisted Query & Code Generation (SQL, Python, VBA), Gen AI for Insight Summarization & Documentation

AI & Automation: Generative AI for Data Prep & Reporting, Report Automation, Dashboard Development

Soft Skills: Data Storytelling, Stakeholder Management, Critical Thinking, Presentation Skills, Attention to Detail

INTERNSHIP EXPERIENCE

Data Analytics Intern Jan 2026 – Feb 2026

KultureHire | Remote · Part-time

- Analyzed **1,200+ survey records** using Excel and SQL to uncover key workforce trends and engagement drivers
- Built 3 Power BI dashboards tracking **8+ HR KPIs**, streamlining data-driven decision-making for leadership
- Led end-to-end analysis — data cleaning, EDA, visualization, and insight generation — on employee engagement data
- Used Generative AI tools to speed up survey data preparation and draft insight summaries for HR stakeholders
- Identified 5 behavioral trends and presented actionable recommendations that informed HR strategy

Data Analytics Intern Jul 2025 – Dec 2025

Beat Excellence | On-site

- Processed and validated **500K+ records** using Python, improving data accuracy by 30%
- Investigated large-scale datasets using SQL and Python to surface key business trends and performance drivers
- Automated 5 weekly reports using Power BI and Tableau, saving **8+ hours per week** in manual reporting effort
- Leveraged Generative AI (ChatGPT) to accelerate SQL/Python query drafting, data cleaning, and report documentation
- Developed predictive models achieving **82% accuracy** to support strategic business decisions

PROJECTS

- **Excel VBA Automation Project — Excel, VBA, Generative AI:** Used Generative AI to build VBA macros that automate repetitive Excel data processing and reporting tasks, improving workflow efficiency and reducing manual effort.
- **Job Market Intelligence Dashboard** — Python, Streamlit, Plotly, BeautifulSoup: Scraped and analyzed 100+ job listings to identify hiring trends and in-demand skills; deployed as an interactive Streamlit web app
- **Uber Ride Analytics Dashboard** — Power BI, DAX, Power Query: Built an interactive dashboard analyzing 100K+ ride bookings to surface revenue trends and driver/customer rating patterns
- **Customer Shopping Behavior Analysis** — Python, SQL, Power BI: Segmented 10K+ customer records via clustering to identify high-value segments contributing ~60% of revenue
- **Walmart Sales Analysis** — Python, SQL, Power BI: Analyzed 45K+ transaction records to identify the top 5

revenue-driving categories and seasonal demand patterns

- **Swiggy Sales Analysis** — Python (EDA): Analyzed 197K+ orders across multiple states and cities to uncover customer behavior patterns and business insights
- **FNP Sales Analysis** — Excel: Built an interactive sales analysis dashboard to evaluate revenue, customer behavior, and product performance trends

EDUCATION

Bachelor of Business Administration — Distance Education, Sreenarayanaguru Open University (SGOU) *Expected 2029*
Pursuing a BBA through distance education, building a foundation in business management, finance, and analytical decision-making

Data Analyst Diploma — Ofsys Educations *2025 – 2026*
Python, SQL, Power BI, Tableau, and Excel with a focus on data cleaning and EDA; completed projects in customer segmentation and sales analysis
